

Typically used as a structural side palm fixing for the upright on either straight or sloping guardrail keeping the upright as close as possible to the slope or stairs. When used as a secondary inline fixing the base needs to be machined to allow the tube to pass through and the bottom fixing hole then becomes redundant.
BASE THICKNESS 7MM

PART CODE	MATERIAL	TUBE SIZE Ø	A	B	C	D	E	Ø	FINISH
16146B	Malleable Cast Iron	33.7	76mm	89mm	71mm	63mm	97mm	11mm	Galvanised
